## Certification and Weight Traceability

- **Ansutek Calibration Certificate**

Issued annually this certificate (is not a recognized standard) but states that your weights have been checked for accuracy and details any errors, users should update this certificate annually or in accordance with their QC program.

*Certificate Charge per weight \$25\* , up to 8 \$55\* , up to 20 \$80\**   
Please tick one

- **NZ Trade Standards Certification for weights**

A Certificate is supplied with each weight in accordance to the New Zealand Governments weights and measurements act, We recommend that the weight be checked and re certified annually, the weight is individually marked and is deemed "legal for trade use" in New Zealand.

*Certificate Charge per Weight \$55\** Please tick here

- **IANZ**

A Certificate is supplied and the weight is deemed to meet the standards of most QC requirements both in NZ and Internationally. Currently the government is considering accepting the IANZ standard as mutually acceptable for NZ trade Standards however this is not currently the case. You should check with your Standards provider or QC auditors for more information on which certificate of traceability is required.

*Certificate Charge per Weight \$100\** Please tick here

---

Please fax this to us on (09) 262 2557 or mail to P.O. Box 76-165, Manukau City, Auckland, New Zealand.
