

LD-100 & LD-200

Heavy-Duty Label Dispensers (Page 1 of 2)

Model – RS *With advanced Reflective Sensor* – New Simplicity and Convenience

Model – T for Transparent, Semi-Transparent or Opaque Labels

Model – S for very small labels or unusual shape labels

The **LD-100** and **LD-200** Series of Label Dispensers advance the state of the art with new convenience and durability and accept labels up to 4.5" or 6.5" wide respectively Using the latest technology, these versatile **Label Dispensers** work with nearly any kind of label. With any of the models, you just slide your roll of labels onto the built-in Core Holder. Then thread the label web through to the take-up spindle and your Label Dispenser is ready for use.

The **Model LD-100RS & LD-200RS** use the latest opto-electronic technology so there is just one simple adjustment for label length. A special Reflective Sensor sits below the label and reliably and accurately senses the leading edge of your label. As you pick up a label the next one is automatically and instantly advanced. The modern design presents the label right at the front of the machine, providing optimum convenience for both left-handed and right-handed operators.

A "HIGH-LOW" Speed Switch allows to adjust for label length or operator preference. There are no mechanical position switches to cause adjustment or operational problems.

KEY FEATURES

- Easy access to dispensed labels.
- Equally convenient for right and left handed operators.
- Works with very short labels (1/4").
- Small footprint.

LD-100-RS

LD-100-RS with Flanges and Counter

	DESCRIPTION	LABEL WIDTH	LABEL LENGTH	ROLL DIA.
LD-100RS	Automatically advances the next label ready to pick. Fast label loading. Quick and convenient operation! Not for transparent labels.	1/2" to 4.5" max. (25- to 114-mm)	0.25" to 6" or more	8.6" max. (220-mm).
LD-200RS	Same features as LD-100RS, but with wider label capacity.	1/2" to 6.5" max. (25- to 165-mm)	(6- to 150-mm)	Core I.D. 1.5" to 3"
LD-FLANGES	Optional aluminum Flange Plates suggested for use with narrow labels that may have a tendency to telescope or fall off the core. Set of 2 Flanges for LD-100RS or LD200-RS.	N/A	N/A	N/A
LDC-1	Optional Label Counter for LD-100RS & LD-200RS. (Factory installed)	N/A	N/A	N/A
HS-LDPS	High-speed power supply to increase speed of the dispenser.	N/A	N/A	N/A

The amazing **Model LD-100T & LD-200T** Label Dispensers advance the art of label dispensing with their ability to dispense virtually any type of label, whether opaque, semi-transparent, or even completely transparent!

Using LABELMATE’s patented sensor technology, the new dispensers reliably peel your label from its backing and present it ready to pick. As soon as you pick a label from the Dispenser, the next one is automatically and instantly advanced. A “HIGH-LOW” Speed Switch plus an adjustable sensor to precisely match label length and solve any label curling problems are standard features.

LD-100T / LD-200T

with LDC-1 Counter & Flanges

LD-100S

MODEL	DESCRIPTION	LABEL WIDTH	LABEL LENGTH	ROLL DIA.
LD-100T	Automatically advances the next label ready to pick. Fast label loading. Quick and convenient operation! For transparent or opaque labels.	1/2" to 4.5" max. (25- to 114-mm)	0.5" to virtually unlimited length.	8.6" max. (220-mm).
LD-200T	Same features as LD-100, but with wider label capacity.	1/2" to 6.5" max. (25- to 165-mm)	0.5" to virtually unlimited length.	Core I.D. 1.5" to 3"
LD-FLANGES	Optional aluminum Flange Plates suggested for use with narrow labels that may telescope or fall off the core when placed on the Label Dispenser. Set of 2 Flanges for LD-100T, LD-100S, or LD-200T.	-	-	-
HS-LDPS	High-speed power supply to increase speed of the dispenser.	-	-	-
LDC-1	Optional Label Counter for LD-100T & LD-200T. (Factory installed)	-	-	-

The **LD-100S** is a completely different concept that solves dispensing problems for very small or unusual labels that most dispensers can't handle. The **LD-100S** can continuously advance labels at the rate you choose or can be controlled with the included ON-OFF Foot Switch. The **LD-100S** cleverly strips the label from the label web and then gently places it back on the web for the operator to pick at the front of the machine.

LD-100S	Label Dispenser with continuously variable speed control and foot switch. Ideal for production lines and very small or transparent labels. The optional LD-FLANGES can also be used with the LD-100S. See above.	Width 4.5" max. (114-mm) No minimum width.	Label Length Not limited
---------	--	---	-----------------------------

Rugged, heavy-gauge steel construction and precision parts yield products of the highest quality that will stand up to all-day, every-day use. All LABELMATE Dispensers are backed by LABELMATE’s famous **3-Year Parts and Labor Limited Warranty**, assuring you trouble-free performance.

Put a new LABELMATE Heavy-Duty **Label Dispenser** to work for you, today!

Size: HxWxD Approximately 9x12x9-inches (229x305x229-mm).

Shipping Weight: Approximately 14- to 15-lbs (6.4- to 6.8-kg).

Power: 120V 60Hz 40-wa. 220-240V 50-Hz power supply also available at the same price.

Specifications are subject to change without notice.
