Flexibly

Measurement results
at a mouse click

METTLER TOLEDO

If only communication could always be so easy ...

- Direct transfer of measurement results into an application program
- Integration of highly diverse METTLER TOLEDO measuring instruments
- Configurable interface for integration of other instruments
- Filters and macros allow user-defined data format
- Password-protected settings

Fast and uncomplicated

With the BalancesLink PC software you can transfer measurement results directly into an application program, a freely chosen input window, or wherever else you position the cursor. The software is versatile and easy to use.

For professional use

Program settings can be saved for future use.

Instrument specific configuration options can be protected and only accessed by authorised users.

Some selected METTLER TOLEDO products

- Analytical instruments
- S20 SevenEasy pH,
 - S30 SevenEasy Cond
 - SevenMulti
 - SevenGo pro

- Moisture analyzers
- HB43, HG63, HR83

Balances and terminals

- XS, XP
- PB, PB-S, PG-S, SB
- AG, SG, SR, PL-S
- AX, MX, UMX
- AB, AB-S, AT, MT, UMT
- BBA, BBK, IND
- Panda
- ID7

Older products than those listed can also be used. BalanceLink now also lets you define your own measuring instruments, which expands the range of instruments that can be used.

Additional features

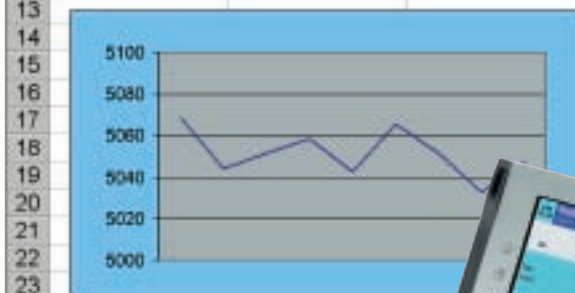

- Data transfer at a keystroke, at a specific time, or at a user defined time interval.
- Date and time stamp for each measurement result (GLP/GMP)
- Data can be written automatically into a simple text document
- Automatic conversion of measurement values
- 5 languages: English, French, German, Italian, Spanish
- Online help

Balance Link allows data communication between a wide range of METTLER TOLEDO instruments and your application program such as MS Word™, MS Excel™, MS Access™ and many more.

System requirements:

MS Windows 2000™ (SP4 or higher)/ MS Windows XP™ (SP1 or higher), Intel Pentium II™ 450 MHz, 128 MB RAM.
