

Automatic Poultry Scales BAT 2

The BAT2 scale is the technological leader in automatic poultry weighing. Thanks to its compact design and battery operation, it can be installed quickly without any wires and additional expenses.

The unique GSM communication system makes building of large wireless networks with remote monitoring simple and cost-effective.

Have you ever dreamt about getting daily statistics of all your flocks for just a few dollars per month? Imagine no more high fees to the communication companies and no problems with cable installation.

Just plug a standard SIM card into the scale and it will automatically send daily statistics to your PC or mobile phone!

You can be in touch with all your flocks daily and you can react accordingly.

There are also many other connection possibilities, so it is easy to use in all existing systems. Together with BAT 2 Full that offers all features, we also offer simpler BAT 2 Lite version suitable for applications with a limited budget.

Specifications:

Maximum weight:	50 or 100 kg
Power:	6–9 V DC
Battery life:	min. 15 days
Memory capacity:	1 year of operation
Data transfer:	memory stick, GSM, RS-485, LAN, Wi-Fi and Internet
